Hydrographic Data Processor

EGS Survey Pty. are looking for an Experienced Hydrographic data processor to join our dynamic team in Fremantle, WA, Australia.

Typically work would be onsite for ~120 days a year and in the office. Site work is currently 60% offshore and 40 % inshore all-around Australia and occasionally overseas. The Work includes high spec ports and harbours work and a large proportion being Nautical Charting / HIPP work.

The successful candidate will have 3-5 years' experience as a Hydrographic Surveyor and significant multibeam processing experience.

Knowledge of processing packages including QINSy and Qimera are a pre-requisite. Caris, Fledermaus and PosPac are advantageous.

The office environment is relaxed, with flexible start/end times available. Working alongside surveyors who spend time offshore, the data processing coordinator will ensure continuity and consistency of data and deliverables produced within the Hydrography Department.

Requirements:

- University degree in Surveying or Hydrography or a closely related marine discipline.
- Equipment knowledge: Kongsberg MBES systems, Applanix POS MV positioning, RTK, tide gauges
- Processing experience of QINSy and Qimera essential.
- Processing experience of Caris HIPS & SIPS an advantage.
- Willing to relocate to commutable distant of EGS of Perth Office (Fremantle Area).
- Self-motivated, with the ability to work well under pressure in a team environment.
- Leadership skills to manage the processing schedule.
- Eligible to work in Australia and possess an Australian driving licence.
- Current medical, BOSIET/FOET certificates are an advantage.

Responsibilities and Accountabilities:

- A commitment to safe work practices and is willing to embrace the EGS Survey Management System and policies.
- Able to operate as the onboard data processor.
- Be able to plan and organise daily processing and reporting activities onboard the survey vessel.
- Prepare the deliverables and GIS formats to the clients' standards.

Practical Skills:

- Sound experience in hydrographic surveying in support of the EGS business line.
- Demonstrate competence developing and maintaining sound co-worker relationships.
- Excellent oral and written communication skills.

How to Apply:

Please send your CVs to info@egssurvey.com.au or call us on 08 9479 6188 during business hours.
